

Be the one to save a life.

BE THE MATCHSM

Filipe was diagnosed with leukemia and he is in urgent need of a Bone Marrow Transplant (stem-cells). This 5-year old kid is going through chemotherapy, hoping to find a compatible donor. You can be the person who can save his life. It's easy to become a potential donor: you have to fill out a form and sweep four cotton swabs inside your mouth to determine compatibility. Simple like that... and it's free!

Thousands of patients depend on the Be the Match RegistrySM to find a donor who can give them a second chance at life. You have the power to heal, the power to save a life. [Take the first step. Join the registry.](#)
